

HAYER & BOECKER

DIE DRAHTWEBER

ENQUIRY MADE EASY. CHECKLIST FOR YOUR QUOTATION.

ENQUIRY MADE EASY.

Material, form and function are closely related in filters and fabricated parts made from woven wire cloth. In order to be able to offer tailor-made product solutions, we need information on your technical product requirements.

The following checklist gives essential information for a fast and effective product enquiry.

It is the basis for an initial counselling interview at eye level.

Checklist Filter Design

Filter Medium	
Medium	
Density	kg/m ³
Dynamic viscosity	kg/ms
Kinematic viscosity	m ² /s
Temperature	°C

Filter Function	
Flow direction	
Pore size / Cut-off	µm
Volume flow	m ³ /h
Cleaning	
Maximum permissible pressure drop in cleaned condition	Pa

Filter Element			
Drawing	Yes	No	
Filter shape			
N° of elements	Piece		
Filter geometry	Length:	Width:	mm
	Height:	Ø:	mm
Filter surface	m ²		
Layer structure			

Woven Wire Cloth	
Material	
Type of weave	
Other information	

Do you have any questions? Our team shall be pleased to help you.

You are welcome to send your completed checklist directly to fuf@haverboecker.com.
