

AZUBI-Mobil / Apprentice – ready to go 2019

HAVER & BOECKER USA

On August 5th, 2019 the trip to the USA began for us, Laura Hanewinkel and Nick Mantler. As part of our training, we were given the opportunity to complete a three-week internship at HAVER & BOECKER USA (HBU).

The colleagues at HBU warmly welcomed us. We were personally introduced to each employee on a tour in the office and production. Then we were able to start with our work.

Nick Mantler: I was able to help to build a palletizer in the three weeks. My tasks included attaching the cable ducts to the scaffolding, assembling the roller table from the palletizer according to the drawing, and also installing a staircase with scaffolding and installing it on the machine using a ceiling crane.

Laura Hanewinkel: In the three weeks I worked in the "Aftersales" department. My tasks included creating equipment cards in the SAP system. I created or revised these with regard to possible changes to customer data. I also took photos of spare parts and checked whether there was a photo for every material in SAP.

We also experienced a lot on the weekends. The city of Conyers is quite small and that's why we went to Atlanta in our free time. There we visited an aquarium and the Coca-Cola Museum, which was very worth seeing. A special highlight was visiting a baseball game. Even if we still had to understand the rules, it was exciting to see how the people there showed their euphoria for this sport. We were able to take great impressions to Germany.

We would like to thank you for the great opportunity to complete an internship abroad, which has helped us professionally and privately with regard to English skills and our independence. Three weeks in the USA went by in a flash for us. We would like to thank our colleagues in Germany for the organization and support, who always had a suitable answer to questions. A big thank you goes to the management, who made this experience possible for us trainees.

Laura Hanewinkel and Nick Mantler
